### CCTV CAMERAS ASSIST POLICE WITH COMMERCIAL ROBBERIES ARRESTS

#### Dear Members,

As a direct result of the CCTV Cameras installed in Roebuck Rd on the HBPK, and further information received from a director of one of those companies, two arrests were made in connections with 9 robberies within the area.

The Police working with the local authority camera control room in Ley St were able to utilise our CCTV system to capture two suspects. In recent weeks several incidents of robbery had taken place around the area. A certain amount of hostility and violence had been used with these robberies; evidence regarding these thefts has been removed by the Police for forensic testing.

The Met Police are making further enquiries regarding these thefts and we can expect a further up date at our AGM on the 29<sup>th</sup> March.

The camera system is there to benefit us all, working in "Partnership" can help improve the environment we all work in.

Regards,
