## **The Credit Crunch**

Hardly a day goes by without a news story about the fraught economy, and you may be concerned about how your business will cope in the 'Credit Crunch'.

Good business and financial planning are always important, but especially so in an economic recession.

### **How can we help?**

As accountants there are many ways we can help to protect your business and it's profitability.

Contact us for advice about:

- Minimising your business taxes.
- Making the most of capital allowances
- Reducing company costs
- Improving your position by accelerating expenditure into the current year, or deferring income into the next.
- Reviewing your bookkeeping systems to see if they are providing you with relevant monthly information.

If we can be of assistance to, as well as arranging a free no obligation Business Health Check and meeting, then please call our Leslie Eriera on either of the numbers above or email him and he will contact you to arrange a meeting.

**Consumer Credit Licence No: 586001**
