

# SECOM

Integrating products and services into a single security solution

Our integrated approach to products and services means we can offer a seamless solution, designed specifically around each customer's needs.

## About SECOM Plc

SECOM are one of the world's leading electronic security companies, providing a wide range of security solutions that are individually tailored to meet your needs. We were established in the 1960s and operate in 12 countries with a 40,000-strong workforce. We have in excess of 1 million subscribers with a turnover approaching £3 billion.

## Our service

SECOM are certificated to BS EN ISO 9001:2000 by NSI and are NACOSS Gold approved. As a Quality Service Provider we see the completion of the installation as being the start of a long, ongoing partnership with our customers. We're on hand at all times to provide assistance, guidance and advice on all of your security related matters. In 2007 SECOM were awarded the Security Industry's

"Best Customer Care Initiative" award.

## Security solutions

Our integrated approach to products and services means we can offer a seamless solution, designed specifically around each customer's needs.

We specialise in tailored security solutions including intruder alarms, CCTV, access control, visual response, key response, physical security, service and maintenance.
